

Have your say on the future of our seas

The East of England marine area is becoming increasingly crowded and there is a huge demand on space.

The Marine Management Organisation (MMO) is now planning for future marine activities in your area – from wind farms to fishing.

You have the opportunity to help define future activities in your local marine area.

Everyone is welcome to come along and share their views at:

Mablethorpe Community Centre, Stanley Avenue 16
February 2012
5 pm to 8 pm
